

# The Official DOOMBUGGIES.COM Death Certificate

*Please enjoy this Official DoomBuggies.com Death Certificate. You may be pleased to note that the "Mélancolie" border used on the certificate is a reproduction of an authentic French engraving first published in 1860 which was discovered in the same catalog of Victorian decoration discovered in the vaults at Walt Disney Imagineering that informed the architectural design of the New Orleans Square version of Walt Disney's Haunted Mansion. According to the catalog, the fantastic illustration "manages to entrap within its decoratively twisted roots a variety of poses of dejection and symbols of solemn and melancholy ideas."*
